Abstract (en)
[origin: WO2006074784A1] The invention relates to a frame with a sliding door (4), comprising a base profile (1), inside of which a carriage (3) that carries the sliding door (4) is guided in a guide. In order to create a universal frame for a sliding door (4), the invention provides that the base profile (1) has a symmetrical cross-section and that a fastening device is provided on the right side, left side and on the top side.
