Abstract (en)

The item in discussion is a container which includes a case (2) in order to hold products or goods. The case (2) includes a lid (21), which is connected to the case (2) through a joined area (22). This joined area (22) has a pre-incision (23) which facilitates in a partial opening of the lid (21). The features of the container (1) include a protective coating (3) that is joined to the lid (21) in at least one configuration of a partial opening.
