Abstract (en)
The post (2) has a body with an external glass layer (4), an internal glass layer (6) and a connecting layer (8), and a screw hole (10) glued in a recess of the body by a two-component silicon adhesive (12). The recess is formed by overlapping the external glass layer of the body, and the screw hole is formed by an aluminum or stainless steel profile, which is provided with an internal rubber sealant (14). The sealant partially extends over a surface of the post, and joins at the recess.

Abstract (de)
Die Erfindung offenbart einen Glaspfosten für eine Ganzglasfassade, der einen aus mindestens drei Glasschichten (4, 6) zusammengesetzten Pfostenkörper (2) umfasst, wobei der Pfostenkörper (2) mindestens eine Ausnehmung aufweist und ein Schraubkanal (10) in die Ausnehmung eingeklebt ist.
