Abstract (en)  
[origin: EP1844684A1] A control platform for a fork lift truck for working in racking systems has a support base (4) for the operator and with a railing (20) facing the rack enabling the operator to reach over into the racks. For improved support and comfort two padded knee pads (26) are fitted to the railing via height adjustable supports to suit different sizes of operator. The knee pads can be secured to the control platform via pressfit connectors.
