Abstract (en)

[origin: EP1845024A1] The arrangement has a contacting element (30) for contacting to a corresponding side wall (14,16,18,20) of the container (10), is flexibly positioned on the opposite ends of the dividing elements (26,28). The contacting element extends along the length of the appropriate end of the dividing element. An independent claim is included for the container has a base.
