Abstract (en)
[origin: EP1847363A1] A press device (1) has a sub-framework (2) with a press-plate (8) with a mounting surface for single- or multi-layer blanks to be pressed from solid wood, via a drive device (30). A micro-wave control device (10) is formed through a plastics hollow molding (11) between the press plate (8) and a parallel extending support plate (17) provided with a microwave generator (19), and which are oriented in a vertical direction to one bottom face (27) of the press plate (8).
