Abstract (en)
[origin: WO2006081604A1] A system for use with products provided on a pallet (5). The system includes a number of interconnected members (1, 4) adapted to define a perimeter for surrounding a pallet (5), at least some of the members includes mountings (10) for receiving a secondary support structure, the secondary support structure (14, 16) being adapted to display information relating to the products.
