Abstract (en)  
A semiconductor wafer surface protection sheet which can prevent breakage of a semiconductor wafer even when a circuit-formed surface of the semiconductor wafer has a significant unevenness, and a method for protecting the semiconductor wafer by using such protection sheet. The semiconductor wafer surface protection sheet includes at least one resin layer (A) satisfying a relationship of  $G'(60) / G'(25) < 0.1$ , where  $G'(25)$  is a storage elastic modulus at 25°C, and  $G'(60)$  is a storage elastic modulus at 60°C The semiconductor wafer protecting method using such sheet is also provided.
