Abstract (en)  
[origin: DE102005009594A1] The wheel (1), especially a light metal wheel for motor vehicles, with a rim flange (15) provided with a cover ring (10) over its whole circumference. A cavity (71) is formed in the radial and/or axial direction between the rim flange and the rim flange cover ring. Technical elements such as balance weights (6), valves or devices for tire pressure control are installed in the cavity. The rim flange cover ring is fastened by means of a clip connection (13).
