Abstract (en)

[origin: WO2006087192A1] The invention relates to a method for personalizing a portable data carrier (1), in which a structure and/or a content of a memory (3) of the portable data carrier (1) is/are modified at least in part. The inventive method is characterized in that the personalizing process is carried out by the portable data carrier (1) with the aid of personalizing software which is at least temporarily implemented in the portable data carrier (1).
