Abstract (en)
[origin: DE102005009193B3] The converter has circular contacts arranged on an insulating material frame. A rotatable insulating switch shaft carries switch contacts which can be switched by the corresponding contact. The converter has a head (1) with a Malteser drive (9,11) for the shaft . The drive is driven by a drive shaft (7) mounted in a threaded flange (2). A hand wheel drive has a flange to be screwed to the head flange and which has a cover through which the drive shaft extends. A hand wheel or allen key adapter is fastened to the free end of the drive shaft.
