Abstract (en)

[origin: EP1854630A2] The device has a container (12) for accommodating a flock or coating material. The container is arranged in an inner side of a stencil frame (23) of an adjusting device (16). The adjusting device accommodates an adjusting unit (32) working in x and y-directions. The adjusting device has fixing units (34) that are provided at an outer side of the stencil frame for arrangement of an alignment device for the stencil frame to align a printing motive of the stencil frame in x and y-directions to the fixing units.
