Abstract (en)
[origin: WO2006095246A1] The multifunctions ceiling drying rack is an innovating equipment for ceiling assembling with 220V AC electrical power feed (ceiling electrical point) that allows hang up clothes on drying rack to dry by thermo ventilators integrated inside the box of this equipment. It's a motorized drying rack, with a motor (M) also integrated inside the box as well all the wheels system, allowing by this way automatic up and down movements of drying rack. It has also in all around box area integrated lights. All these functions such switch on and off the lights and thermoventilator, to program drying times and drying temperatures and up and down movements of drying rack will be operated by a remote controller device by infra-rays controlled by an electronic control pcb (C) located inside the equipment box.
