Abstract (en)

[origin: EP1857568A1] Metal strip coating unit comprising a coating roller (1), a coating device (3,4,5,6) for applying the coating material, a, endless masking strip (10) which is traversed over the coating roller, and a guide (21) for the metal strip as it passes over the coating roller. The masking strip is made from a material which is not wetted by the coating material. An independent claim is included for method of applying the coating material.
