Abstract (en)  
[origin: US2007289466A1] A web-fed press includes at least two printing units and at least one drier for drying at least one printing-material web which is moved through the at least two printing units and printed on at least one side with at least one offset printing ink at each of the printing units. The printing-material web is dried at least after the first printing unit and before the second printing unit.
