Abstract (en)

[origin: WO2006100299A1] The invention relates to the use of mixtures of amine group-containing polymers and amide group-containing polymers for modifying the rheology of water-containing compositions and to methods of modifying rheology. The invention especially relates to the use of said mixtures for thickening water-containing compositions for use in cosmetics, human and animal food, dermatology, pharmacy and washing and cleaning agents, plant protection, surface modification or in petroleum production such as e.g. in enhanced oil recovery.
