Abstract (en)

[origin: EP1865192A2] The fuel injector (1), injecting fuel into the cylinders of an internal combustion motor, is operated by an actuator (5). The injection valve (23) is controlled by a piston (19) with a sleeve section (21) to take the valve. It defines a control zone (29) together with the end surface (25) of the valve. The piston is a valve piston of a servo valve (33).
