Abstract (en)

[origin: EP1867922A2] The assembly has a housing (14) exhibiting a base wall (18), where an air inlet projection (24) projects towards a housing interior (20) from the base wall. The air inlet projection exhibits a peripheral wall without air inlet openings and is opened at an air inlet end (36) that is distant from the base wall. A closure wall is attached at the peripheral wall of the air intake projection at the air inlet end, and the air inlet projection is opened in a region of the closure wall.
