Abstract (en)
A gaming machine (1) includes: a cabinet (3); a display portion (4) that is provided on the cabinet and displays information related to a game; an operation unit (10) that is provided on the cabinet and allows a player to input operations for playing the game; and a plurality of light emitting units (20) that are disposed in the cabinet, each of the light emitting units being arranged to emit light in a way that a quantity of light to be emitted toward the player is smaller than a quantity of light to be emitted toward other directions. The side part of the housing of the gaming machine is curved.
