Abstract (en)

[origin: WO2006111139A1] The invention relates to a method for treating flexible bags, especially for transporting, opening, filling and closing the bags in subsequent treatment stations (10, 20, 30) by a) transporting the bags in holding devices (14) in a plurality of webs from one treatment station to the next. The method is characterized in that b) the bags are transported in a continuous movement; c) the respective treatment station (10, 20, 30) is entrained during treatment from its initial position in synchronicity with the bags; and d) after treatment, the respective treatment station is returned to its initial position.
