Abstract (en)

[origin: WO2006114385A1] Active package (10) with preservative action consisting of a film made starting from a mixture comprising at least a certain quantity of a suitable polymer, charged with at least an additive component suitable both to increase the consistency and resistance of the polymer, and also to provide it with a desired aesthetic and tactile appearance, for example similar to paper. Into the mixture which forms the film at least a food type additive is introduced, with preservative capacities, in particular, but not only, antioxidizing capacities.
