Abstract (en)

[origin: EP1878840A2] The device has an insulating body (3b) with at least two part bodies and integrated transverse curved armoring rods (2) for connection to both components with inset modules (4) for fixing the rods in inclined positions. The inset modules have connecting elements (5a,5b) for fixing them to the part bodies, which can be fixed together via the inset modules and connecting elements.
