Abstract (en)

[origin: WO2006074770A1] The invention relates to a screwable cable lead-through (1) comprising a seal, and a threaded opening which is provided in a component (2) wherein a diameter-reducing pressure surface is arranged. The screwable cable lead-through also comprises a sealing ring (3) which can be deformed and inserted into said threaded opening and a hollow screw (5) which can be screwed into the thread. According to the invention, the sealing ring (3) and the hollow screw (5) are fixed to each other. The invention also relates to another solution.
