Abstract (en)
[origin: EP1880771A1] The spray pistol (1) has a pistol housing (2) for the admission of that propelled mixture or dosage in a construction unit of the spray pistol. A grab handle (3) and storage vessel (4) for the admission of the medium, which is processed in the pistol housing is also provided. Compressed air outlets are provided for different jet sprays, which are provided with a nozzle needle. A connecting nut (10) or equivalent hold element is also provided, which is connected in circumferential direction positively with an air cap (11).
