Abstract (en)

[origin: EP1880968A1] The kit has a standard slip insert including a standard slip zone, and an assembly slip insert (13) with an assembly slip zone, where the assembly slip zone has a material which is different from the material of the standard slip zone of the standard slip insert. The assembly slip zone is selected in such a manner that a cleaning effect is provided to a guiding rail, during movement of the cage along the guiding rail of the lift system. Independent claims are also included for the following: (1) a lift system with a cage and guidance shoe (2) a method for starting a lift system with a cage.
