Abstract (en)  
[origin: DE202006011540U1] The chair has feet (1, 2) and parallel frame parts (3, 4) which carry plates (11, 12). The parts are provided for the seat face screen end plate. The parts are evenly arranged on a front border with separated slots (19a, 19b, 19c). The seat face screen end plate and or the foot setting up surface define the plate having two sections (16a, 16b, 17a, 17b). The first section has a width which is smaller than the distance between the inner surfaces of the frame parts, while the second section has a width which is the same or more than the external distance between the frame parts.
