Abstract (en)

[origin: EP1882501A2] The fastener (1) has a U-shaped cross-section, an upper part (8) for fixing a strap (6) that is connected with a ski skin, and a hook-shaped lower part (7) encompassing an end (5) of a ski (2). The upper part is made of thermoplastic plastic, where the hook-shaped lower part is a separate clamp, which is made of a spring-elastic material and fixedly connected with the upper part. A lower arm of the hook-shaped lower part has an upward pointing end and a downward pointing end, which are elastically clamped against a lower side (3) of the ski.
