Abstract (en)  
[origin: DE202006011500U1] Packaging (10) made from corrugated cardboard comprises a foil sack (30) folded in a first position of side walls (21-24) and joined to the inner side of the sack so that it can fold into a second position when the side walls are folded and lines the fold packaging. Preferred Features: The foil sack is adhered to the side walls using four adhesive marks (41, 42). The packaging has a base (51-54) connected to the side walls and lying between the side walls in the first position and automatically folding when the side walls are folded.
