Abstract (en)

[origin: EP1882662A2] The system has sheet brakes with two module carriers (8) arranged in a row for carrying brake modules (10, 11). The module mountings are movably arranged on each other, and the brake modules are disconnectably formed to and from the module carriers. The brake modules are coupled to one of the module carriers in an operation mode. A multi-way valve (22) is integrated into the module carriers, and comprises a valve body that is rotatably supported to switches.
