Abstract (en)
[origin: EP1882761A1] A textile pattern warping assembly (1) has a warping drum (2) with a number of thread guides (7) that move around the drum. The machine further has a turning rail (3) with several bobbins (4) and thread paths between the rail and guides. Each thread path has a thread tension sensor (12) and a thread tightener (14) linked to a thread tension regulator (15). .
