Abstract (en)
[origin: EP1882798A1] The fitting (1, 1') has a door or window pusher (4) mounted on a rosette (3), and a mounting socket (5) fastened to a door leaf or window frame. A torque proof or detachable base body (6) is fastened to the socket. A blend ring extends to the socket over the base body in a screwed and inserted manner. The pusher is mounted on the base body in a rotatable manner. A detent spring is mounted on the socket, and the base body is brought in locking engagement with the detent spring so that the base body is fixed at the socket by the detent spring in an axial direction.
