Abstract (en)

[origin: WO2006111273A1] In order to provide an applicator for two or more components, in particular for an adjustable metering dispenser in which the components (A, B) are only mixed at an applicator surface (2) with outlet apertures (3), the outlet apertures (3; 3a, 3b) for one of the components (A) and for the other component (B) extend separately up to the applicator surface (2) and are brought together to a point at the applicator surface (2).
