Abstract (en)

[origin: WO2006123926A2] The present invention relates to a peptide composition for culturing and/or growing micro-organisms and/or cells on the basis of at least one vegetable protein source, wherein at least 20% of the peptides present in the peptide composition have a length of 1 to 20 amino acids, to a method for the preparation thereof and to the use of the peptide composition for diverse applications.
