Abstract (en)
[origin: EP1714888A1] The bag has an opening part (26) separable along a breaking line lying transverse to a bag longitudinal direction and a form-stable outer package (30), where the bag is plain. Openings of the package lies in a plane standing perpendicular to a tube axis and a bag end protruding from the outer package is put-over in inside over an edge of the outer package after the separation of the part. A heat-sealed joint is provided in the bag.
