Abstract (en)
[origin: EP1889900A1] A detergence article is described, comprising a flexible carrier, non-soluble in water, irreversibly impregnated with a dye scavenger component, and containing at least one component in the form of a powder or gel, consisting of a detergent and/or additive component. The invention also relates to a process for obtaining a detergence article and its use for washing by hand or in a washing-machine.
