Abstract (en)

[origin: EP1889978A2] The device comprises a cover, which is designed in frame shape such that cover is fixed directly to a floating unit by fixing elements of floating unit. The control element is detachably connected with the cover by a snap-on connection and is pivoting lever type around a vertical axis. The screen (4) is detachably connected with cover with the help of clip elements or magnets.
