Abstract (en)
A press button for controlling two or more functions of a coin-operated entertainment machine, such as a fruit machine, has a movable button (27) with a display region (28) and a switch (23). The button (27) can be pushed to operate the switch (23), and lamps (25, 26) are provided to back-illuminate images on the display region (28). The images are of different colours, and the lamps (25, 26) provide differently coloured light. The images can be viewed selectively depending on which colour light is used.
