Abstract (en)
[origin: WO2006136119A1] A modular construction for a switchgear (1) is disclosed in order to be able to use a switchgear (1) in a simple manner at least partly during the electrical life thereof. Said switchgear (1) comprises a switching chamber (2), containing a switch unit (12) arranged in a main supply line (6) and a base module (3) detachably mounted on the switch chamber (2) with a mechanical and/or electrically controlled trigger mechanism (21) for operation of the switch unit (12). The main supply line (6) runs exclusively within the switch chamber (2).
