Abstract (en)

[origin: EP1894807A1] The bogie has two longitudinal supports (3) with a transverse support (5), connected with the longitudinal support and with a torsion bar (15). The torsion bar runs parallel to the transverse support. One of the transverse supports has a crank (11) at each end. The torsion bar is arranged in the area of the crank, which is inside the transverse support. The bogie has two crankshaft transverse supports.
