Abstract (en)
[origin: EP1897467A1] A seat (2) on a school-pupil's chair is molded as a double-shell plastic mold with two or more stiffening ribs (24) extending from a seat part's (20) underside to a backrest's (22) rear side. The stiffening ribs form a side edge for the chair in a transitional area from the backrest to the seat part.
