Abstract (en)  
The invention relates to a method to allow an end-user (USER) of a specific broadcast service to use this service when travelling after he registered to a specific broadcast service provided by a foreign operator (OP2), at home operator (OP1) before travelling. This foreign operator (OP2) builds ESG service for this specific broadcast service and broadcasts this service to the end-user once the home operator (OP1) sent to the foreign operator (OP2) identifiers and programs content.
