Abstract (en)

[origin: WO2007005373A1] A time varying electromagnetic force sleeve (10) comprising a time varying electromagnetic force source (3) operatively connected to a coil (1) having a conductive portion (7), a coil support (5), and an interior portion wherein the interior portion defines a space that removably receives a mammalian body part. Also provided is a method for enhancing repair of defective tissue of a mammal.
