Abstract (en)
[origin: WO2007003739A1] The invention relates to a temperature limit switch (10) comprising: a thermal insulating block (12), an ultra-high performance fibred concrete layer (14) which is fixed to the block (12), and reinforcements (16) which are embedded in the layer (14) of ultra-high performance fibred concrete, projecting from said layer either side of the block (12). The invention also relates to a building comprising said switch, to a method for producing said switch, and to a method for erecting the building. The invention is advantageous in that it is easy to implement.
