Abstract (en)

[origin: WO2007000336A1] The invention relates to a device and method for testing sensors for value documents and a corresponding test medium. According to the invention, a test medium (1) is prepared with an electronic data store (7) for data, said data being used for testing the sensor (11). The data is transmitted from the test medium to a test device (12) which tests the sensor depending on the transmitted data.
