Abstract (en)
[origin: EP1282202A1] The click fit coaxial connector has complementary connections (2,3) with a tubular body (5) with central penetrating contacts (6) retained with an intermediate isolation section (7). A first connector element has a retention element (25) exercising a radial effort and generating a second connection element axially pressing a carrier (19). There is an internal earth contact (8) inserted in the body and contacting a lower wall.
