Abstract (en)
[origin: WO2007000299A1] The invention relates to a manhole top piece (10) for a manhole, comprising an access part (11) and a manhole cone (12) which connects to the access part and can be placed on an additional manhole structure part with a connecting element (13) on the side of the manhole cone upstream of the access part, the manhole cone (12) having a substantially convex basic shape. The manhole cone has at least three sections in which substantially parallel reinforcing elements are provided.
