Abstract (en)
[origin: EP1902940A2] Access gangway for boats comprising a plurality of base elements which are movable with respect to each other so to make such gangway extendable. Such base elements comprise a trolley (2) which determines the binding of the gangway to the boat, a fixed frame (3) bound in an articulated manner to the end of such trolley having the possibility to carry out raising or lowering motions with respect to such trolley by means of movement means, and a movable frame (4) associated with the fixed frame (3) and telescopically slidable with respect thereto.
