Abstract (en)
[origin: EP1903160A1] The device has an inspection frame (1) comprising an inspection profile (3) and an inspection cover (2) attached to the inspection frame, where the inspection cover has a cover profile (4). The frame profile and the cover profile are provided for accommodation of insulating wall panels and comprise a rectangular form and/or profile formations (8, 9). The frame and cover profiles comprise a material thickness of less than 1 millimeter and manufactured from steel, aluminum or plastic.
