Abstract (en)
[origin: EP1903288A2] Disclosed is a refrigerator having a plurality of drawer-type doors (20b) installed in a transverse direction in parallel to each other. The refrigerator includes a body (10) provided at left and right portions thereof with a plurality of storage chambers (11) which are aligned in parallel to each other to store materials therein, and a plurality of drawer-type doors installed in the storage chambers and capable of being moved forward or backward. A step difference adjusting device (30) is provided to adjust installation positions of the drawer-type doors to reduce a step difference between adjacent drawer-type doors (20b).
