Abstract (en)

[origin: WO2007010562A1] The present invention relates to a dispenser (1) for supplying material for household cleaning and/or personal hygiene comprising a box element (2) adapted for containing a roll (4) of material for household cleaning and/or personal care and hygiene housed so as to freely rotate and soaking means (5) for soaking a portion of said material when it is unwound from the roll (4), characterised in that at least one container (7) containing a liquid for household cleaning and/or personal care and hygiene is connectable to said soaking means. Said dispenser allows excellent versatility as it allows using different solutions on the same base without being forced to empty any basins, so as to meet all of the user's needs.
